

Metal Panels Inc. is a quality provider of manufactured metal roofing and siding products, meeting the needs of the Metal Roofing, Metal Building and Post Frame industry since 2001. Locally owned and operated in Tulsa, Oklahoma, MPI has grown by providing our customers with quality products, timely delivery and our best in personalized service. Our knowledgeable, friendly staff can provide assistance on a wide selection of products, including 8 panel profiles, custom trim and a wide variety of finishes and accessories. Metal Panels Inc. operates a 30,000 square foot manufacturing facility, and diligently provides the products you need, when you need them. MPI now serves the needs of our customers in Oklahoma, Kansas and Missouri.

In addition to being responsible to our customers, we are also responsible to our environment. Metal outlasts many other roofing and building products, and is one of the most recyclable and renewable materials available. Environmentally responsible manufacturing also means we recycle 100% of our metal waste. Our “go green” approach extends to our product line, for many of our panel products are Energy Star certified and meet LEED 2.2 requirements for slopes greater than 2.12.

Call us today, and discover why Metal Panels Inc. is the best choice for service, for products, and for the environment.
