## NOTES

MATERIAL: 24 GA, 22 GA STEEL

COIL WIDTH: 13-7/16"

The HW-8 Panel from Metal Panels Inc. delivers refined architectural texture with the strength of 24- or 22-gauge steel. With an 8" coverage and concealed-fastener design, it creates clean lines for walls, fascia, soffits, ceilings and fencing—installed horizontally or vertically (marginally). Standard factory-formed continuous lengths up to 46' minimize seams. Panels interlock securely with HW-8 as well as HW-12 and HW-16, enabling cohesive multi-profile façades with limitless design flexibility.

Ideal for commercial, institutional, and residential projects, the HW-8 combines durable performance with crisp, modern visual appeal—engineered to elevate the entire building envelope.
